HEALTH & WELLNESS SUITES

WEEKLY UPDATE

April 14, 2021

Dear Residents and Families/Representatives,

This letter is to inform the community of our current status regarding COVID-19 in our facility. We do not have any COVID positive residents in the facility at this time. As of today, we have had a total of 15 COVID positive residents. We are continuing to take all precautions based on our policy and procedure and updates from Health and Human Services.

We had a vaccination clinic through our contracted pharmacy to get additional people vaccinated. Unfortunately, this had to be canceled due to the CDC pulling the Johnson and Johnson COVID vaccination. I will continue to try and find other avenues, until we are able to get all residents and employees vaccinated.

To date, we have had 15 employees test positive, and 1 that are currently still unable to return. We will continue to keep you posted through weekly updates that will be posted to the facility websites. Due to Harris County positivity rates going below 10%, and the facility having no positive residents we have decided to open up visitation. Current visitation hours are from 8am to 8pm, and all visitors will be asked to follow the updated policy and procedure. All visitation must take place in the rooms to minimize any possible exposure.

Please continue to check our website for weekly updates as well as notification of new cases. As always, we will notify you if we receive confirmation of a new positive case in our facility and we will reach out to you individually if your loved one is displaying symptoms or tests positive for COVID-19.

If you have any questions or concerns please contact us directly at (346) 9983500.

Sincerely,

Femi Alabi-Isama
Administrator
